SKILLS

- React / Next.js
- TypeScript / JavaScript
- C (Systems Programming)
- Supabase / PostgreSQL
- Three.js / React Three Fiber
- Framer Motion / GSAP
- Tailwind CSS
- Docker
- Git / GitHub Actions
- REST API Design

LANGUAGES

- English: Proficient
- Hindi: Native
- Bengali: Native

AI TOOLKIT

- Kiro
- Claude
- Cursor
- GitHub Copilot
- v0 / Vercel
- ChatGPT

PROFILE

I am a full-stack developer and systems programmer with experience in React, TypeScript, C, and Supabase. I build high-performance SaaS products, open-source tools, and freelance solutions. I leverage AI-augmented workflows to deliver 5x faster with enterprise-grade quality.

PROJECTS

NeoAuth - Authentication SaaS *React, Supabase, SQL*

- Drop-in auth with JWT, OAuth2, magic links; 10K+ users
- 99.9% uptime, <50ms latency in production

CoreDB - Key-Value Store *C, Open Source*

- Pure C, zero deps, <50KB binary, 10M+ read ops/sec
- 1.2K GitHub stars; production use worldwide

FlowCMS - Headless CMS *React, Supabase, TypeScript*

- Real-time collaboration, version history, visual queries
- Serving 5 clients with unlimited storage

ShipKit - React Starter Kit *React, Supabase, TypeScript*

- Production boilerplate with auth & DB; 500+ downloads
- 20+ features; launch projects in under 5 minutes

PulseAPI - API Monitoring *JavaScript, SQL, Docker*

- Live dashboards, alert webhooks, 90-day retention

NetScan - Network Scanner *C, Docker*

- Multithreaded scanner, 10+ protocols, containerized

CAREER HIGHLIGHTS

- 7+ products shipped to production
- 50,000+ lines of production code
- 5+ satisfied freelance clients
- 1+ years professional experience

TECHNICAL JOURNEY

C > HTML/CSS > JavaScript > React > TypeScript > Supabase > Docker

Status: Available for Freelance, SaaS Collaboration, Open Source, Full-Time
